

## Register of Business Interests for Members of the Governing Body (4<sup>th</sup> December 2023)

From 1 September 2015, governing bodies have a duty to publish on their website their register of interests for the last 12 months. The register sets out the relevant business interests of Members, and details of any other educational establishments they govern. The register also sets out any relationships between governors and with school staff, including that of spouses, partners and relatives – where applicable. “None” is the recorded entry on the register for governors who have no interests to register.
